**Re: Dominion Voting Systems Corp ECO-100936 Submitted for Approval**

Dear Victor Vasquez

The EAC has reviewed Engineering Change Order **ECO-100936**, including supporting documentation and analysis provided by the voting system test lab. This minor change updates the documentation by outlining steps to update the SSD firmware, to address and prevent a display error on the ICX which does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

Democracy Suite 5.17

This correspondence is to inform you that Dominion Voting Systems Corp **ECO-100936** is approved.

Sincerely,

---
