**Re: Dominion Voting Systems Corp ECO 101025 Submitted for Approval**

Dear Victor Vasquez

The EAC has reviewed Engineering Change Order **ECO 101025**, including supporting documentation and analysis provided by the voting system test lab. This minor change added DELL P2425H monitor as a display device for server and client workstations due to the DELL P2422H monitor becoming commercially unavailable for purchase. This minor change does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

All D-Suite system configurations that include the DELL P2422H monitor.

This correspondence is to inform you that Dominion Voting Systems Corp **ECO 101025** is approved.

Sincerely,

---

Frank Galizia  
Field Services Specialist
