Re: Dominion Voting Systems Corp DVS-101046 Submitted for Approval

Dear Victor Vasquez

The EAC has reviewed Engineering Change Order **DVS-101046**, along with the supporting documentation and analysis provided by the voting system test laboratory. This minor change involves the inclusion of the Cisco 24-Port Managed Switch (C1300-24T-4G) as a new COTS component replacing its predecessor, Cisco CBS350-24T-4G. The change does not impact the system's reliability, functionality, capability, or operation. Based on the information provided, no further testing is required.

The systems impacted by this ECO are:

Democracy Suite 5.17
Democracy Suite 5.20

This correspondence is to inform you that Dominion Voting Systems Corp **DVS-101046** is approved.

Sincerely,

Sean Pumphrey
Field Services Specialist
U.S. Election Assistance Commission
